6 EMPIRE STATE PLAZA • ALBANY, NY 12228

March 1, 2019

Dear Members of New York's Traffic Safety Community:

The Governor's Traffic Safety Committee (GTSC) is again pleased to announce this year's grant opportunities. As the new Acting Commissioner of the Department of Motor Vehicles, I encourage you to develop innovative programs in your communities to help us dramatically reduce the number of fatalities and injuries on our roadways. I'd also like to take this opportunity to introduce myself. Some of you may know me from my days as a State Assemblyman or as the City of Buffalo Comptroller. I look forward to working with you and your colleagues as we strive to enhance the safety of motorists on our roadways and provide quality customer service to our shared constituency.

Traffic safety initiatives undertaken at the local level and funded by GTSC grants have supported our efforts to reduce all types of crashes including those related to speed, impairment, motorcycles, occupant protection, bicyclists, pedestrians, and commercial motor vehicles. The implementation of programs that educate the public on the dangers of drowsy, impaired, distracted, and aggressive driving and the enforcement of these traffic safety laws continue to make New York a national leader in highway safety.

Our consistent success in New York State can be largely attributed to the innovative and data driven programs that our grantees implement each year and from the partnerships we have formed among local, state and federal partners. We at the GTSC do not take these relationships for granted and are thankful to all our partners who work tirelessly each day to drive fatality, crash and injury rates down.

While it is still too early to release final motor vehicle fatality and serious injury data for 2018 in New York State, I am pleased to report that the preliminary data are showing a reduction from 2017. This comes at a time when 21 states reported an increase in traffic fatalities in 2017. This is a testament to the hard work being done every day by our grantees in New York State. However, as encouraging as these statistics are, I am still heartbroken when I read of one injury or fatality on our roadways that could have been prevented.

Your sustained efforts and dedication to highway safety are to be commended and recognized for the valuable contribution made toward making New York a safe state in which to live, work and travel. Together, we will maintain our strong commitment to making our state's roadways safer for all.

STATE OF NEW YORK GOVERNOR'S TRAFFIC SAFETY COMMITTEE 2020 GRANT PROGRAM DESCRIPTIONS AND APPLICATION INFORMATION

March 2019

New for 2020 – Please note that every employer in New York State is now required to adopt a sexual harassment prevention policy and provide annual training to its employees. The Governor's Traffic Safety Committee (GTSC) is required to have all grant applicants certify that they are complying with this law. For more information, please visit <https://www.ny.gov/combating-sexual-harassment-workplace/employers>

I. Structured Programs - Child Passenger Safety and Police Traffic Services:

Child Passenger Safety (CPS) - These grants will continue to support the educational activities of child passenger safety programs through the four different initiatives or schedules: fitting stations, training and education programs, child passenger safety check events and car seat distribution programs for low income families.

Please note: In Federal Fiscal Year 2020 there will be funding available for the purchase of a **limited number** of child safety seats for use with Schedule A – Permanent Fitting Stations and Schedule C – Car Seat Check Events. Schedules A and C will require hands-on education pertaining to the proper use and installation of a car seat. In the event it is determined a car seat needs to be replaced, pre-established guidelines need to be followed and a misuse form completed and given to the parent/

caregiver. Funds will also be available for the purchase of a limited number of child safety seats for use with Schedule D – Child Safety Seat Distribution Programs. Schedule D will require the verification of low income status as well as in classroom instruction about child restraint systems and hands-on education pertaining to the proper use and installation of car seats.

Police Traffic Services (PTS) - The Federal Fiscal Year 2020 Police Traffic Services (PTS) grant program will provide funding to law enforcement agencies to conduct traffic enforcement. In addition to having a current mandatory seat belt use policy in place for police officers of the department, participation in the national Click It or Ticket seat belt enforcement mobilization is required. This program will also fund agencies to conduct traffic enforcement details based on the crash data of their local jurisdiction, with the goal of impacting motorist behavior and

improving traffic safety within their communities.

The incentive funding for these structured programs is limited. GTSC may not be able to fund all of your initiatives. Applicants may request up to the maximum grant amount of \$40,000 for CPS and up to \$46,000 for PTS. There is no minimum request amount.

II. General Highway Safety Grants - The highway safety grant application for local, state and not-for-profit agencies is available to address a particular highway safety problem in their jurisdiction. This proposal requires applicants to submit a narrative outline of the problem with supporting data, details of the proposed activities with milestones and an evaluation plan.

Proposals must address one of the program areas included in the state's Highway Safety Strategic Plan, which can be found online at www.SafeNY.ny.gov/hsdata.htm. Program areas considered for the general Highway Safety Grant funding include: occupant protection; traffic enforcement; motorcycle safety; traffic records; community programs; programs that impact our younger drivers or older drivers; pedestrian safety; roadway safety and impaired driving.

In 2020, our impaired driving program will focus on statewide projects that support training, enforcement, and technology and state agencies' initiatives to support the efforts of the County STOP-DWI programs. We anticipate that available federal funding will once again be limited this year so applications need to be detailed and supported by data.

Highway Safety Strategic Plan - Every year, the New York State Governor's Traffic Safety Committee prepares the Highway Safety Strategic Plan (HSSP). This plan is the road map for traffic safety professionals in the state and is based on issues and strategies identified by the GTSC member agencies, other state

and local agencies, law enforcement agencies and not-for-profit organizations. The HSSP can be found online at www.SafeNY.ny.gov/hsdata.htm.

We invite you to contact the GTSC if you have suggestions for the HSSP.

Problem Identification - Since successful programs are data-driven, we encourage you to use the crash and ticket data reports that are available for each county through an online database developed by the Institute for Traffic Safety Management and Research (ITSMR) with funding from the GTSC. The database, called the Traffic Safety Statistical Repository (TSSR), contains crash data from 2009 forward, including preliminary crash data for the current year, and ticket data for 2009-2017.

To access the TSSR, please visit www.itsmr.org/TSSR. Several help tools are available on the site, including a User Guide, FAQ, Glossary of Terms and TSSR Directory. Please contact your Highway Safety Program Representative at the GTSC if you have questions.

Application Procedure - The due date for all applications is May 1, 2019. Not-for-profit agencies must register with and be pre-qualified in the New York State Grants Gateway before submitting a GTSC grant proposal. Proposals received from not-for-profit applicants that have not registered and are not pre-qualified in the Grants Gateway on the proposal due date of 11:59 PM on May 1, 2019 cannot be evaluated. Such proposals will be disqualified from further consideration. If you need assistance with Grants Gateway enrollment or enrollment in the GTSC's eGrants, contact the GTSC.

General instructions for preparing grant applications are included in the eGrants system. If your agency does not have a Project Director currently

Governor's Traffic Safety Committee

enrolled in eGrants, contact the GTSC for guidance. Frequently asked questions, an overview of the requests for proposals, application and review process can be found online at www.SafeNY.ny.gov/egrants/default.html. Additional information on eligibility requirements can be found on <http://SafeNY.ny.gov/egrants/rules.htm>.

Applications must be submitted using the GTSC eGrants system. The due date for General Highway Safety, Child Passenger Safety and Police Traffic Services grant applications is May 1, 2019. Applications submitted after May 1, 2019 will not be considered. Applicants must submit their proposals by changing the status of their completed 'In Process' proposal to 'Submit' on or before May 1, 2019.

If you have any questions or need any assistance preparing your grant application, please contact your GTSC Highway Safety Program Representative listed below or call (518) 474-5111.

The Governor's Traffic Safety Committee administers highway safety grant funding in accordance with 23 CFR Part 1300 Uniform Procedures for State Highway Safety Programs and 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and according to the guidelines published by the GTSC in the structured applications and the Guide to Preparing a Highway Safety Program applications. Grants are reviewed for approval based on the criteria stated on the application. In general, the review is based in part on past performance, agreement to perform requested activities, significance of problem identified, and rationale of proposed solution.
